

Butler Football Camp

If you want your team to be the best it can be this fall, then don't miss out on the first annual Butler Football High School Team Camp this summer. The strength of our camp includes the coaching staff, player to coach ratio and our emphasis on *teaching*.

Practices will include individual and one-on-one, 7-on-7, inside run, unit and team 11-on-11 instruction. All practices are run pro tempo, no tackling.

This camp is designed to provide high school teams with opportunities to learn, develop and improve their football skills, knowledge and confidence. Campers will also learn aspects of team work, motivation, flexibility and speed development in relation to the game of football.

The Butler Football High School Team Camp offers each athlete the opportunity to learn, develop and master the techniques necessary to be a productive football player. We are able to provide campers the individualized instruction that will prepare them for a successful 2009 football season.
